**Introductions**

Steve Detwiler opened the meeting and welcomed the members.

**Strategic Plan**

Steve Detwiler gave an overview of the 2017-2019 Strategic Plan. The new plan will be submitted to the members for final edits. The biggest change Mr. Detwiler recommended is changing the Alliance name to Alliance for Response-South Florida. This change better reflects that we have expanded our membership into Broward County.

**Heritage Response Team**

The first two days of training has been well received. The course participants were very engaged and found it very helpful. We still have eight webinars coming up, we will be sharing these with the art and cultural community in South Florida. As part of the training we also need to review a previously series of webinar on designing a institutional plan. Steve Detwiler has suggested that we use these recordings and create a webinar for the training participants and also the rest of the art and cultural community is South Florida.

**Virtual Exercise**

Jessica Unger suggested that our virtual exercise for this year include the use of the Incident Command System and the recovery lessons from the training course. Steve Detwiler will get it scheduled, probably for some time in July.
